

Illuminating Perspectives in Research: Applying the Transformative Power of Integrating Gender into Inquiry

The GenderLens workshop is a one-day training program on the integration of gender considerations into research questions and analyses. The workshop shows how the inclusion of gender perspectives into research questions and research methods improves the quality of knowledge produced and teaches participants how to do this work in their own research.

This specialized training is designed to advance the knowledge and skills of researchers in the identification, formulation, and integration of gender-specific inquiries within their research agendas. The primary goal of the training is to develop the research skills of the participants.

Workshop Highlights

Nuanced Understanding: Thorough insight into the relevance and importance of gender issues in research agendas and research methods in all scientific fields, with examples from the trainer and idea development from participants..

Dynamic Approach: Diverse didactic approaches to ensure a comprehensive learning experience.

Active Application: Participants actively apply the knowledge from the workshop to their own unique research agendas through facilitated discussions and exercises.

Informed Decision-Making: Knowledge on why and how to incorporate gender-specific questions into research and meeting the expectations of stakeholders and funders.

Participant Testimonials

“Attending Alyssa’s workshop on the gender lens in research was an enriching experience. I gained valuable knowledge and practical skills that will significantly improve the quality and inclusivity of my research. It’s a must-attend for anyone who wants to elevate their research practices and contribute to a more equitable research landscape.”

“The GenderLens Workshop was thought-provoking and eye-opening, engaging and fun! I can highly recommend the workshop for any public institution or private entity. It will leave you more aware of the world we have been living in and it will give you the tools to contribute to research that better represents society.”

“Alyssa’s grasp of the subject matter is phenomenal. She provided insightful examples and research that opened my eyes to the often-overlooked gender bias in research design, data analysis, and interpretation.”

➔ The workshop is ideally one full day.
It can be held in person or online.
